AN AWFUL RAILROAD RACE. Cars.

N. Y., to the New York Times, says: By a sying, and told the band that they must locomotive explosion on a western railroad a few days ago, the engineer, John Davison, be directed to permit. They again fell on was killed. Davison was one of the oldest ral years on the Buffalo, Corry and Pitts- midnight, when they again awoke. In burgh railroad, where he had one of the one corner of the room, near the ceiling, tail at all gatherings of railroad-men where the others, in a instant, sang the different the dangers of the foot-board have been the

ten miles, but owing to the numerous sweeping curves in the railroad the distance by rail is fourteen miles. The grade mile. The Corry road extends into the Pennsylvania oil regions, and ten years ago to Wisconsin. They are some bread and carried large quantities of petroleum. On gine was at the Summit with a train of one trance. At one time he was seized with box-car, six loaded oil-cars, and two passenger-cars. The box-car was next to the locometive and the box-car was next to the locomotive, and the passenger-cars were at cauce gained the victory, and he afterwards the rear of the train. The engineer had had transporting visions. This continued started the train, and it had attained good beadway, when he discovered flames issuing from one of the oil-cars. He whistled down brakes, and the coaches were cut loose from the oil-cars, which were quickly uncoupled from the box-car. The engineer then pulled on down the hill to get out of the reach of the burning cars, in order to save the locomotive and the other car, in which were two valuable trotting horses and their keepers on their way to Cleveland. He supposed the brakeman would put the brakes on the oildone, and they followed the locomotive, pump. The keepers in the car next the oilears climbed up to the opening end of the not only as superior in quality, but as in form the

> the great conflagration, apparently flying through the air, now hidden for a second by a cut or a piece of woods, and then leaping out again and up toward the sky like a rocks, and his sombre wings are less prohuge fountain of fire, is described as having been awful in its grandeur. The idea of Engineer Davison was to call for the opening of the switch for him at frightened deer has just sprung into place Brocton Junction, so that he could run on where all this rainbow hangs upon his to the Lake Shore track, where the grade was ascending, and where he could soon get out of the way of the burning ears through their having lost the propelling power of thank the Maker for this little patch of the decline of the Summit grade. It happened, however, that the Cincinnati express on the Lake Shore road would be due at the junction when Davison's engine reached there. To add to the terror of the situation,

He left R. J. Campbell's Sunday morning, on horseback, for the purpose of filling his appointments, and proceeded to O. Higday's, in Elkhorn. THERMOMETER YESTERDAY: 6 A. M., 44; Here he found five persons in all, comprising two men and three women. in a too, serzed by the same fascination, soon followed. He lay in a trance, during which he had the most ecstatic visions. Pursued Down Hill by Burning Oil In a few hours the six persons recovered their consciousness, and each learned that the other had been blessed with heavenly visions. One of the sisters began prophenights without other food than she should the floor in a trance that continued until she had heard white in the trance-and all parts, making the most delightful melody. ever heard on earth. They again fell into a trance state, from which they awoke again tion of the Lake Shore road the distance is next morning. The prophesying sister, who from Wisconsin, told the others they must organize, go forth and hold camp-meetings, holiness-meetings, and all sorts of meetings Galbraith saw a pillar of salt while in the lett for Lemars. Some friends were trying to raise funds for him so that he might return to Ireland, where his father is stationed as an Episcopal minister. This is substantially the story as told by Galbraith. All the parties to the singular transactions are known to us by name, but we forbear rious story.

doing anything beyond outlining the cu-An Arizona Picture. AN ALMOST CLOUDLESS THUNDER-STORM. cars, but in the excitement this was not [Arizona Correspondence of the Chicago Tribune.] field. Well, here we are, in the midst of almost gaining headway every moment. Before a cloudless thunder-storm. One who has the engineer had taken in the situation the never been in the mountain valleys in the and stoves with which the Supreme-Cour oil-cars, every one of them now ablaze, heated season can hardly realize how it can came dashing upon him around a curve. lighten, thunder, and rain suddenly and They crashed into the box-car, knocking in with little or no preparation; yet a little one end of it, but, singularly enough, ugly cloud comes from somewhere, almost parates and heaps of neither that nor any of the moving in a minute, and it is big with tempest. I cars were thrown from the track by do think this country is capable of more of the name McLane, spelled differently but same the collision. The engineer and fireman lightning and thunder to the minute than could have escaped all danger by abandon- any other place in which I have ever ing the locomotive, but, as Davison said beeu. That little cloud has spread out to when asked afterward why he did not pur- about the size of two big carpets, but it sue that course, they had \$20,000 worth of is a full-grown thunder-storm. It is about the company's property in their charge, and 3 P. M., hermometer 105°, with the sun they were determined to save it if possible. According to the engineer's story of the incident, he saw that there was to be a race mountain. What a magnificent bath this is ! for life between him, with his engine, and These drops are not falling so thickly as I the flaming cars under no control. He said have seen them, but they will average just plece, too thin to handle, and therefore wasted; that when the oil-cars struck the one in about as large where they touch you as which the horses were the poor animals your thumb-nail. What a picture, if this herst. actually screamed with fright. The heat trembling beauty, in the little space interwas unbearable. Davison pulled the throt- vening, and the side of that mountain, tle-valve wide open, and he declared drifting off into the ravine up toward the that they flew down the eighty-foot sun, could be carried to the canvas! Is it grade so fast that the engine could not possible that there are nothing but drops of water falling through a trembling sheen of golden light? A shower car, and with faces pale as death begged the engineer to "give her more steam." They could not toss brighter jewels from their could see the blazing oil-cars through the cabinets. I know that those are only broken end of their car, and it seemed to stinted, murky-green shrubs clinging to terday morning. them that they gained at every turn of the that desolate hill-side; but they are the wheels. The engineer said that when he tinted background of a picture no artiststruck the sharp curves at the lightning speed hand dare profane. How it trembles, at which he was going he expected that his while nameless hues are drifting, changing engine would leave the track and be burled | ere you have had time to think how beautidown the mountain-side. The night was ful. And this companion-picture, brimful acquitted. very dark. The engine thundered along of wordless beauty. Why is the human faster than any engine ever ran in this casel so tame? That is the same old moun- fined \$1 for mistreating a cow. country before or since, through woods and tain which I descended not thirty minutes deep rock cuts, and on the edge of high since-an old, rusty, rocky dome, but that dered to leave the city, which they will precipices. The horses were stamping and shudow of Neptune was not there then, neighing with terror in the box-ear, and with that girdle of rainbow about his loins. only a few feet in the rear was the flying If raindrops are brighter, here rainbows mass of flame rushing down the mountain are more real, solid beauties. It cannot be like a tremendous meteor. The blaze from a shadow only. See! it leans up against the thousands of gallons of burning oil that old giant cactus, and its diswas more than sixty feet in height, and mal ribs glow with shadings I dare not try lighted up the woods and rocks and crooked to name. Now it trembles on the prickly road for miles. The whole beavens were illuminated, and from Brocton the sight of are changing crystals. That bolt of electric fire which just spent its fury on that old erag, and sent those bits of stones down the hill, has started an owl from his hole in the fane while bathed in hues like those. Even

LIVER PILLS.

HEPATITI OR LIVER COMPLAINT, DYS-

FOR THE CURE OF

PEPSIA, AND SICK HEADACHE.

SYMPTOMS OF A DISEASED LIVER. Pain in the right side, under the edge of the ribs, ncreases on pressure; sometimes the pain is in the side; sometimes the pain is felt under the shoulderblade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumaof libitethe and sickness; the bowels in general are postive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A sugnt, dry cough is sometimes an attendant. The patient complains eet are cold or burning, and he complains of a beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, be distrusts every death recalls that night of paril to come and one of the they saw a large, bright, and beautiful star, and lights passed to and fro death recalls that night of paril to come. remedy. Several of the above symptoms attend the in this part of the State, although it has disease, but cases have occurred where a few of never ceased to be related in minutest dehem existed, yet examination of the body after

death has shown the LIVER to have been extensive-
